

## DrumGrab™

The DrumGrab™ is a unique Australian designed device which offers a safe, easy and reliable way to shift, lift and manoeuvre most 205 litre drums. It is self-centering, fast and easy to lock on and will only come off when required! It fits to most lifting devices and has a rated capacity of 1 Tonne. DrumGrab™ is an efficient method of drum handling which prevents injuries and spills and will make the job easy!

## Features:

- Complies with Australian Standard AS4991.
- Fits to almost all plastic and steel 205 litre drums with lids fitted, which have a rim.
- Capable of extracting a drum from the middle of a cluster without affecting the other drums.
- Cast, using high quality ductile iron; conformed to Australian standards (S.G. Iron 500/7 to AS1831) which is powder coated in safety yellow.
- Holds up to 1 tonne easily.
- Prevents injuries and spills.
- Robust and reliable for harsh conditions.

The information shown is to be used as a guide only. Specifications are subject to change without notice. All materials handling or lifting jobs should be assessed individually. Pacific Hoists products are NOT to be used for lifting or lowering persons.
